## British Journal of Hospital Medicine, the leading multi-specialty review journal, has been educating hospital doctors for over 40 years

The journal publishes authoritative, topical and in-depth clinical reviews that are written by experts and peer-reviewed by some of the world's most renowned medical authorities and specialists.

BJHM covers all specialties in hospital medicine, making it a must-read publication for all doctors who want to ensure that their practice is evidence-based and up-to-date with all the latest clinical developments.

Regular features in the journal include:

- **Editorials**
- **Clinical Reviews**
- **Symposia**
- **Education and Training Update**
- **Case Reports**

In addition, each issue of BJHM contains a pull-out supplement on the foundation programme, providing all the information foundation programme doctors need to successfully complete this stage of their training.

**FREE online access**

Personal subscribers to BJHM now receive FREE online access to BJHM's online archive at www.bjhm.co.uk which contains all articles published in the journal since 1999.
